## Introduction

Election Commission of India has introduced computerization at every level of its working. This had facilitated an effective and error free Election process in the entire country. The electoral roll is a list of all people in the constituency who are registered to vote in Indian Elections. Only those people with their names on the electoral roll are allowed to vote. Upgrading and cleaning of Electoral Rolls is a continuous process.

The Electoral Roll Management System (ERMS) enables the CEO to maintain the complete electoral roll of state. The intensive & summary revisions i.e. updations, additions and deletions required in the electoral roll can be easily managed and also the time and expense on the information storing, sharing and publishing will be reduced. The application software will reduce the manual work, streamline the operation and hence increase efficiency, transparency and the productivity. It will also facilitate in publishing of accurate and timely electoral roll.
